## F WRITTEN EXAM

On the interview day, each applicant will have half an hour to complete a written exam. The exam will be issued on the spot.

## G PORTFOLIO

The purpose of a portfolio is to demonstrate your artistic ability as well as your organizational skill. The contents of the portfolio must demonstrate your versatility in different media - sketching, painting, collage, photography, etc. Architectural perspective and rendering are neither required nor compulsory. Portfolio reveals a great deal about the author. Be critical about what you put inside. Select only the best ones that best represent your artistic sensibilities, passion and maturity of your thinking. Special attention must be paid to the quality of reproduction of the original work. For instance, try to have your drawing scanned rather than photographing it by yourself. If scanning is not an option due to the size of the work, digital camera with a minimum of eight – ten mega pixel camera with appropriate lighting set up will surffice. Do not submit anything larger than A4 format. If you have oversized work, please have it professionally reduced to A4 size. The thickness of the portfolio must not exceed one inch. Portfolio larger than the given dimensions will automatically be rejected. All the work shown in the portfolio must be exclusively made by you. Question of authenticity may result in a demonstration during interview. Please refrain from including family portraits or photo of trips from abroad.

**I hereby certify that the information on this application is complete, accurate, and true. I agree to abide by the policies and regulations of Chulalongkorn University. I also understand that the decision made by the B.Sc. in Architectural Design Program Admission Committee and/or Chulalongkorn University for admission and/or enrollment is final.**
